Bedrijfsbeschrijving

The company is a high-end luxury yacht manufacturer based in the Netherlands, specialized in crafting premium aluminum sport yachts with innovative foldable designs extending to a beach club area creating the largest entertaining area in its class.

We build high end luxury, powerful sport yachts with aluminum construction, crafted by skilled craftsman by hand, partnering with top suppliers to ensure exceptional performance, durability, and efficiency.

Key Project Highlights Innovative Design: our yachts feature foldable hull sides, expanding sun decks and creating a “beach club” like experience, making the clients closer and more connected to the water, we have the largest sq meter area for dining and entertainment in its class. We are seeking funding for promotional activities, launch trials, and participation in the 2025 Düsseldorf Boat Show. Once we launch into the market, according to our high quality and unique design, we will 100% get sales in the boat show. Then we can pay off all the loan right away.

Powerful Performance: Our 50-foot yacht offers 1.800hp, already far exceeding the competition, we have the most powerful yacht in its class, and next year engines have an upgrade to 2.200hp that’s 1,000 to 1,200 horse power more than the leading competitors.

Business Model

Our 50ft model selling price will be 2.4million, and the cost of it is around 1.8million, so our net profit for each 50ft will be 600K. Our plan is to sell 3-5 boat of 50ft for the first year.

Our 80ft model selling price will be 9million, the cost of it is around 7million, the net profit will be 2million.

All these are direct sales product to customers in each boat shows.

USP's

Our yachts are all lightweight aluminum construction built by skilled craftsmanship with experience of 30 to 40 years working on super yacht mega yachts, mega yachts are regarded as the highest standards of quality and we implement this in every aspect of building our yachts.

There is an increasing demand for aluminum hull structure because of recent extreme weather conditions around the world because of climate change that when yachts are in the parked in the harbor when there is the extreme weather conditions of storms the yachts that are made from a material called GRP (fiberglass

Yachts are getting severely damaged or destroyed, however with our aluminum construction only the paint work will be damaged.

Clients are now more wanting aluminum construction to avoid there yacht been damaged or having to claim on insurance and been without there yacht for long periods of time or without a yacht altogether and also having to deal with the stressful process when making claims through the insurance companies.

Our unique hull design that has not been seen before offers unique handling and agility with great power and performance giving an exceptional driving experience gives exceptional handling and agility.

Investeringsbehoefte

- Yacht launch trials 200K,
- Promotional activites 100K,
- Participation in Germany boat show in Jan,2025 (booth cost + transportation + insurance) 100K

Ervaring Founder(s)

We build high end luxury, powerful sport yachts with aluminum construction, crafted by skilled craftsman by hand, partnering with top suppliers to ensure exceptional performance, durability, and efficiency.

We work with an industry leading jet manufacturer. This party is recognized as the best in the industry, and governments around the world use there jet systems for military purposes such as landing craft, fire rescue/police and custom boats. This combination of design, attention to detail and power quality, and the details I just mentioned will make us a market leader.

We want to be a well-known and respected shipyard in the industry, with excellent quality, great attention to detail and design, and excellent power to weight ratio in the luxury sports yacht market.

Overige Relevante Informatie

We have a loan from Debitroom of € 350,000, we have a leasing of €100,000, the rest money is from our own.

The total cost now is around € 1.4million.
