Bedrijfsbeschrijving

Pynn AI: We build the intelligence layer for Europe's innovation

Pynn AI is a groundbreaking AI-driven solution developed by **Max Ventures**, a Spanish investment group, to revolutionize how investors, incubators, accelerators, conferences and groups assess startups at scale.

Faced with the challenge of evaluating a high volume of startup applications efficiently, we built Pynn AI – an **intelligent, fully automated platform** that **analyzes startups, assesses risk across multiple dimensions, and generates detailed reports** in minutes.

The results were so powerful that we didn't just keep it in-house – we launched **Pynn AI as a standalone company**, bringing it to the market to transform the investment landscape.

Live since January 20, 2025, and with zero marketing, we've already secured paying clients in 4 countries (including venturecapital.nl) and assessed **400+ startups in just days**.

Why Investors Need Pynn AI

With **Pynn AI, due diligence is effortless**. Simply **share your unique URL** with startups applying for investment. They complete a structured assessment, and Pynn AI instantly generates a comprehensive, AI-powered evaluation report – giving you **deep insights, risk analysis, and investment potential at a glance**. 🚀

Save Time, Cut Costs, and Make Smarter Investment Decisions.

The future of **automated startup due diligence** is here. Join us in scaling this innovation – **invest in Pynn AI today.**

Business Model

Our B2B SaaS Business Model

Pynn AI operates as a **B2B SaaS platform** designed for **Angel Networks, Venture Capital firms, Family Offices, Investment Funds, Incubators, and Accelerators**.

Our pricing model is simple and scalable:

Monthly Subscription – Clients pay a **tiered monthly fee** based on the volume of **funding applications** they process through Pynn AI.

Onboarding Fee – A one-time **onboarding fee** applies to all plans, covering setup, customization, and integration support.

This flexible model ensures that **investment firms of all sizes** can leverage Pynn AI's **AI-powered due diligence**, automating their **startup assessment process** and maximizing efficiency.

USP's

Unique Selling Propositions (USPs) of Pynn AI

1. **AI-Powered Due Diligence** – Eliminate manual startup assessments with an intelligent system that analyzes risk, evaluates key metrics, and delivers comprehensive reports in minutes.

2. **Time-Saving Automation** – Investors can assess dozens of startups in the time it usually takes to review just one—without sacrificing depth or accuracy.

3. **Zero Friction for Investors** – Simply **share a unique URL** with startups, and Pynn AI does the rest—no need for endless email exchanges, document reviews, or manual scoring.

4. **Faster, Smarter Investment Decisions** – Get **data-backed insights** on **market potential, financial health, team strength, and scalability**, helping you focus on the best opportunities.

5. **Early Market Traction** – **Already live with paying clients** and **400+ startups assessed in our first 3 months** – without any marketing. Proof of concept?

6. **Cost-Effective & Scalable** – Traditional due diligence is expensive and time-intensive. Pynn AI dramatically reduces costs while enabling investors to scale their deal flow evaluation.

7. **Built by Investors, for Investors** – Developed in-house by **Max Ventures**, Pynn AI was designed to solve real challenges in venture capital and angel investing.

8. **Instant Risk Assessment** – Avoid bad investments with **risk scoring across all key company elements**, from financials to leadership, product viability, and market fit.

9. **Market-Ready and Growing** – With investor demand already proving strong, **Pynn AI is positioned to scale rapidly**, creating massive opportunities for early backers.

Future-Proofing Investment Strategies – AI-driven insights will soon be the industry standard—**investors using Pynn AI gain a first-mover advantage in the future of venture capital.**

Investeringsbehoefte

We are raising funds to **supercharge our growth**—**enhancing our AI-driven platform** and **expanding our market reach**. This investment will allow us to **accelerate software development**, refine our predictive analytics, and bring in a **top-tier sales leader** to scale client acquisition and revenue.

Ervaring Founder(s)

Meet the Pynn AI Leadership Team

Patrick – Investor & Co-Founder

25+ years as an **entrepreneur and angel investor** 🚀 **Visionary leader** with deep expertise in **startup growth, investment strategy, and venture scaling** 🌍 Extensive **global network** and hands-on guidance for early-stage companies

Toni – CEO & Co-Founder
